

George Rutter: 5 July 1932 - 23 October 2024

George was an Honorary Life member of the Friends of the National Railway Museum and long-serving member of the FNRM Council, as well as being the founder of the South of England Group and a member of the 229 Club. He played an active role in the Friends following his retirement from British Railways in 1988. Our condolences go to his wife, Margaret, also a life member of the Friends, who was always by his side at the many outings and sales stand events. A full obituary will appear shortly.
